On January 29, 2007, Vodacom Group (Proprietary Limited) ("Vodacom") (unlisted), in which Telkom has a 50% holding, announced its quarterly update for the nine months ended December 31, 2006. A copy of the announcement is attached hereto as Exhibit 99.1 and is incorporated herein by reference.

SPECIAL NOTE REGARDING FORWARD LOOKING STATEMENTS

All of the statements contained herein and in the exhibits incorporated by reference herein, as well as oral statements that may be made by Telkom or Vodacom, or by officers, directors or employees acting on their behalf, that are not statements of historical facts constitute or are based on forward-looking statements within the meaning of the US Private Securities Litigation Reform Act of 1995, specifically Section 27A of the US Securities Act of 1933, as amended, and Section 21E of the US Securities Exchange Act of 1934, as amended. These forward-looking statements involve a number of known and unknown risks, uncertainties and other factors that could cause Telkom's or Vodacom's actual results and outcomes to be materially different from historical results or from any future results expressed or implied by such forward-looking statements. Among the factors that could cause Telkom's or Vodacom's actual results or outcomes to differ materially from their expectations are those risks identified in Item 3. "Key Information-Risk Factors" contained in Telkom's most recent Annual Report on Form 20-F filed with the US Securities and Exchange Commission (SEC) and its other filings and submissions with the SEC which are available on Telkom's website at www.telkom.co.za/ir, including, but not limited to, increased competition in the South African telecommunications markets; developments in the regulatory environment; continued mobile growth and reductions in Vodacom's and Telkom's net interconnect margins; Vodacom's and Telkom's ability to expand their operations and make investments and acquisitions in other African and other countries and the general economic, political, social and legal conditions in South Africa and in other countries where Vodacom and Telkom invest; our ability to attract and retain key personnel; our inability to appoint a majority of Vodacom's directors and the consensus approval rights at Vodacom that may limit our flexibility and ability to implement our preferred strategies; Vodacom's continued payment of dividends or distributions to us; our ability to improve and maintain our management information and other systems; our negative working capital; changes in technology and delays in the implementation of new technologies; our ability to reduce theft, vandalism, network and payphone fraud and lost revenue to non-licensed operators; our ability to improve our internal control over financial reporting; health risks related to mobile handsets, base stations and associated equipment; risks related to our control by the Government of the Republic of South Africa and major shareholders and the South African Government's other positions in the telecommunications industry; the outcome of regulatory, legal and arbitration proceedings, including tariff approvals, and the outcome of Telkom's hearing before the Competition Commission, its proceedings with Telcordia Technologies Incorporated and others; our ability to negotiate favorable terms, rates and conditions for the provision of interconnection services and facilities; our ability to implement and recover the substantial capital and operational costs associated with carrier pre-selection, number portability and the monitoring, interception and customer registration requirements contained in the South African Regulation of Interception of Communication and Provision of Communication – Related Information Act; Telkom's ability to comply with the South African Public Finance Management Act and South African Public Audit Act and the impact of the Municipal Property Rates Act; fluctuations in the value of the Rand; the impact of unemployment, poverty, crime and HIV infection, labor laws and exchange control restrictions in South Africa; and other matters not yet known to us or not currently considered material by us.

We caution you not to place undue reliance on these forward-looking statements. All written and oral forward-looking statements attributable to Telkom or Vodacom, or persons acting on their behalf, are qualified in their entirety by these cautionary statements. Moreover, unless Telkom or Vodacom is required by law to update these statements, they will not necessarily update any of these statements after the date hereof, either to conform them to actual results or to changes in their expectation.

<u>Exhibit</u>	<u>Description</u>
99.1	Announcement, dated January 29, 2007, issued by Vodacom Group (Proprietary Limited) ("Vodacom") (unlisted), regarding its quarterly update for the nine months ended December 31, 2006.

EXHIBIT 99.1**MEDIA RELEASE****29 January 2007****Trading update****Vodacom results for the period ended December 31, 2006**

As at December 31, 2006, Vodacom Group recorded 28.2 million customers across its networks operating in South Africa, Tanzania, the Democratic Republic of the Congo, Lesotho and Mozambique, reflecting a 9.5% increase in the three months since September 30, 2006. The growth in the customer base is a result of high gross customer connections of 4.5 million for the three months since September 30, 2006. The Group's non-South African operations comprised 6.4 million customers, or 22.7% of the total customer base.

South African operations

South Africa includes the operations of Vodacom South Africa and the Smartphone SP (Pty) Limited Group.

South Africa increased its customer base by 7.8% since September 30, 2006 to 21.8 million customers of which 2.9 million are contract customers and 18.8 million are prepaid customers, reflecting increases of 6.7% and 8.0% since September 30, 2006, respectively.

To date customers joining the Vodacom network together with customers leaving the Vodacom network due to number portability have totalled about 20,000. This is less than the number of new connections which Vodacom usually activates in any one day. As far as contract customers are concerned, Vodacom has gained twice as many as it has lost through number portability, and as far as prepaid customers are concerned it has lost more than it has gained.

Vodacom South Africa has retained its leadership in a highly competitive South African mobile communications market with an estimated market share of 58% on December 31, 2006. The SIM card penetration of the cellular industry in South Africa is now an estimated 80% of the population.

South Africa customers, year-to-date ARPU, churn, 3 month inactive customers and estimated market share as at December 31, 2006 compared to September 30, 2006 are as follows:
