School of Technology

Faculty of Information Technology

Students trained in the Information Technology Faculty will obtain future-ready skills needed to be successful in a variety of job functions with the broad IT environment. Learning solutions range from PC end-user interventions such as Microsoft Suite and IC3 through to programming and systems training on a broad range of vendor offerings, using methodologies that enhance hands-on skills and experience required to function in today's technology careers.

The IT faculty enables classroom and online learning, hands-on labs, and access to courses, resources and collaboration tools.
