B3 CALLS TO MOBILE SATELLITE TERMINALS VIA THE INMARSAT SYSTEM

B3.1 Inmarsat rates

For more information on Inmarsat rates contact our International Customer Care Centre on 0800 11 33 66.

B3.2 Radiotelephone calls from ships to Inmarsat terminals

Item B3.2	RADIOTELEPHONE CALLS FROM SHIPS TO INMARSAT TERMINALS		
a	TO INMARSAT A	Charge per minute (Rand)	
		New Excl VAT	New Incl VAT
	Via VHF		
(i)	Coast station charge, plus	3.22	3.67
(ii)	Telephone call charge to appropriate INMARSAT terminal as per international call charge list		
	Via HF		
(iii)	Coast station charge, plus	8.58	9.78
(iv)	Telephone call charge to appropriate INMARSAT terminal as per international call charge list		

NOTES ON RADIOTELEPHONE CALLS FROM SHIPS TO INMARSAT TERMINALS

A ship at sea wishing to make a call to an INMARSAT user can be connected via the coast stations. The ship can call on a VHF or HF radio circuit and be connected to an INMARSAT mobile via the International Operational Centre.

B3.3 Message delivery from ship to shore received via Inmarsat

Item B3.3	MESSAGE DELIVERY FROM SHIP TO SHORE RECEIVED VIA INMARSAT		
		New Excl VAT	New Incl VAT
	A surcharge of	8.79	10.02
	Plus a handling fee of	26.75	30.50
	Total charge per message	35.54	40.52

NOTES FOR DELIVERY OF MESSAGES RECEIVED FROM AN INMARSAT MOBILE

An Inmarsat mobile station may forward a message to the coast stations for onward delivery. These messages must be treated as data and not counted per word. Please note the mobile station is already paying Inmarsat charges. The charges are made up of a surcharge equivalent of one coast station Telex-over-radio charge plus a handling fee.

B3.4 Delivery of messages to Inmarsat "C" terminals

Item B3.4	DELIVERY OF MESSAGES TO INMARSAT "C" TERMINALS		
		New Excl VAT	New Incl VAT
	Delivery of messages via INMARSAT C per minute	16.67	19.00
	Plus a handling fee of	26.75	30.50
	TOTAL	43.42	49.50

NOTES FOR DELIVERY OF MESSAGES VIA INMARSAT "C"

RETAIL FIXED LINE TARIFF LIST: 1 April 2017

Only messages received via telex, fax, telephone or E-mail may be transmitted. These messages will not be counted per word but will be treated as data.

B3.5 Telegrams from ship to an Inmarsat "C" terminals

Item B3.5	TELEGRAMS FROM SHIP TO AN INMARSAT "C" TERMINAL			
			New Excl VAT	New Incl VAT
	INMARSAT "C" charge per minute		16.67	19.00
	A coast station charge per word of		1.64	1.87
	Plus a handling fee of		26.75	30.50

NOTE ON TELEGRAMS RECEIVED FROM A SHIP TO BE DELIVERED TO AN INMARSAT "C" TERMINAL.

A message received from a ship at sea via radiotelephone service will be treated as a telegram and be counted per word. As there are no land line charges involved the sender will be charged a coast station charge per word. He will also be charged the relative Inmarsat "C" transmission charges plus a handling fee.

B6.2 Monthly rental for network access

Item B6.2	MONTHLY RENTAL FOR NETWORK ACCESS	Rand Excl VAT	Rand Incl VAT
a	Network Terminating Unit (NTU)	Item A2.8 & A2.9	Item A2.8 & A2.9
b	Access – Per terminal point	Item A2.8 & A2.9	Item A2.8 & A2.9

NOTES ON LEASED CIRCUITS (ANALOGUE & DIGITAL)

The local end connection to the nearest multiplexer at the exchange is copper wire, but the national transmission link from the exchange to the earth station is optic fibre.

Leased circuit charges via satellite are for both continental and inter-continental circuits and exclude the local end connection.

Satellite circuits are available to most destinations worldwide

Minimum contract term of service:

- * 2Mbit/s and lower bandwidths - 1 year
- * Above 2 Mbit/s up to 45 Mbit/s - 1 years
- * 155Mbit/s - 1 years

The contract period shall commence on the day on which the service is commissioned.

Should the Customer terminate this contract prior to the termination date, the Customer shall pay a penalty amount equal to the percentage indicated below, of the rental which would otherwise have been payable for the remainder of the Initial Term of the service. This condition will not be applicable when the fixed term contract is terminated for the purpose of replacing the existing contract term with Telkom with a new contract for greater commercial value.

- For any services of 2 Mbit/s and lower, a penalty of 15 % of the rental for the remainder of the period;
- For services higher than 2 Mbit/s but less than 34 Mbit/s, a penalty of 25 % of the monthly rental for the remainder of the period;
- For services of 34 Mbit/s and higher, a penalty of 100 % of the monthly rental for the remainder of the period.

Temporary services

Should Telkom accept an order for a temporary service, the minimum contract term for such a service will be:

- 2 Mbit/s and lower bandwidths - 3 months;

All other conditions will be applied according to the current contractual stipulations. To obtain more information, please call 0800 111 3444.

The FreeCall customer will be responsible for the cost of all international calls made to the FreeCall number. Call charges are the same as the Standard time International rates already in force between Telkom and each individual country from where FreeCall calls will be accepted.

B9 RESERVED

PART C EXPLANATORY NOTES**TELEPHONY****NOTE 1 CONCESSIONS**NOTE 1 a **Reduced** installation charge and monthly rental for social pensioners:

In respect of one main basic telephone service for residential purposes for the recipient of an older persons, disability and war veterans grant, as defined in the Social Assistance Act, 2004 (Act 13 of 2004) as well as other pensioners whose total monthly income is not more than the maximum pension of the aforementioned social pensioners: Provided that such a person renders proof to the satisfaction of Telkom SA Limited regarding his/her status as a pensioner and that he/she is the head of the household at the address where the telephone service is to be provided to him/her or that he/she requires the telephone service for his/her own use in an old age home or similar institution.

Social pensioners retain their reduced line rental if they apply for any supplementary services such as TalkPlus, Surfmore, ADSL etc. However, if a social pensioner choose to subscribe to the InfnitCall Plan he/she will forfeit the reduced rental and the service will be converted to a normal full rental residential service.

NOTE 1 b Reserved

NOTE 1 c Reserved

NOTE 1 d **Call charge concessions**

Visually disabled telephone customers in possession of a certificate issued by the South African National Council for the Blind which certifies that the holder is a visually disabled person who rents a telephone service from Telkom and cannot be assisted by other members of his/her household to look up telephone numbers: First R44.06 (Incl. VAT) or part thereof that register on the customer's meter per debit period.

NOTE 1 e Telephone services provided on a temporary basis for use by political parties either for election campaigns and at polling booths for the election of members of parliament, or for campaigns in connection with referendums and at polling stations established for referendums. The minimum monthly rental is equal to the rental for one month applicable to permanent services.

NOTE 1 f To Members of Parliament and session officials in Cape Town and vicinity for the duration of the Parliamentary session. Monthly rental is payable on a pro rata basis from the date on which the service starts until the date on which it is terminated.

NOTE 1 g Ordinary refers to customers not qualifying for a concession or rebate in terms of Note 1.

NOTE 1h Reserved

NOTE 1i The installation of the first exchange connection for clinics, hospitals, schools, libraries and local authorities is free of installation charge. For all subsequent services the normal prescribed charges apply. The appropriate rentals are payable at all times.

NOTE 2 CALLS

NOTE 2 a Reserved

NOTE 2 b Reserved

NOTE 2 c Should advice of charge be requested for fixed-time calls, the surcharge for advice of charge is payable in addition to the surcharge for fixed-time calls.

NOTE 2 d The prescribed manually-operated call charge is payable in respect of each individual connection. The call charges are assessed from the exchange where the conference call originates and is payable in addition to the connection charge. Metering of the call should only commence once all the parties have been connected.

NOTE 2 e The connection charge is payable when a booked conference call is cancelled within 30 minutes before its commencement.

NOTE 3 **MINIMUM-RENTAL AREA**

The minimum-rental area is the built-up area within an exchange area.

NOTE 3 a The distance for service beyond the minimum-rental area is measured according to the radial distance from the exchange.

NOTE 3 b Distance for a portion of the line beyond the minimum-rental area, measured along the actual route or nearest road, whichever is the shorter, per kilometre or portion thereof, per pair.
The total rental consists of the fixed rental for the portion within the MRA plus the per pair kilometre charge beyond the MRA.

NOTE 3 c Line rental per kilometre or portion thereof based on the radial distance between the various trunk-line exchanges and, where applicable, the radial distance between the trunk-line exchanges and the terminal exchanges, per pair

NOTE 3 d Line rental, irrespective of the length of the wires, per pair. See chapter 14 of Commercial Policy Reference Document.

NOTE 3 e Reserved

NOTE 3 f Reserved

NOTE 3 g Between different exchanges or between different exchange areas in grouped telephone-exchange systems. Line rental based on the radial distance between the various trunk-line exchanges and, where applicable the radial distance between the trunk-line and the terminal exchanges.

NOTE 3 h The rental consists of the appropriate fixed rental for the portion of the line within the MRA plus the total per kilometre charge of the line beyond the MRA as per item A1.2.3 f (iv).

NOTE 4 **RESERVED**

NOTE 5 **RESERVED**

NOTE 6 **RESERVED**

NOTE 7 **AUXILIARY EQUIPMENT**

NOTE 7 a Subscriber private meter for use by a customer at an automatic exchange with variable time interval metering: The charge includes the activating facility in the exchange.

NOTE 7 b Activating facilities in telephone exchanges for subscriber private meters provided on PABX systems, per junction line equipped with such facility.

NOTE 7 c The charges prescribed apply over and above the charges applicable to the type of service on which the auxiliary/Customer's Premises Equipment is used.

NOTE 7 d The monthly rental for subscriber private meter facilities in telephone exchanges, item A1.2.1b, is not included in this tariff.

NOTE 7 e No monthly rental is payable where these instruments are used on single lines. However, where these instruments are used on switchboard lines the prescribed monthly rental is still applicable.

NOTE 7 f An additional R535.37 (Excl VAT) to be debited manually when installed by Telkom at a customer's premises

NOTE 7g Reserved

NOTE 7h Service no longer provided – rental for existing customers only.

NOTE 8 **RESERVED**

NOTE 9 TRANSFERS

- NOTE 9 a Installation or transfer of any service or device which is undertaken after hours on request of the customer will be carried out at the prescribed installation/transfer fee plus 40%. In case of the recovery of a service/device the standard service fee plus 40% will apply.
- NOTE 9 b Reserved
- NOTE 9 c The outdoor transfer of a service in effect means the discontinuance of the existing service and the provision thereof at the new location/address. The charge as for a new installation thus applies.
- NOTE 9 d Any type of telephone, device or exchange connection provided on a temporary basis for use by political parties either for election campaigns and at polling stations for the election of members of Parliament or for campaigns in connection with referendums and at polling stations established for referendums
- NOTE 9 e The indoor transfer fee applies when a service is transferred within the same building, as defined in the Commercial Policy Reference Document.

NOTE 10 FREE CALLS - Notwithstanding the rates in table A1.6 no charges are applicable to the following calls

- NOTE 10 a Local calls made from customers:
Flat-rate exchanges - irrespective of the duration of the call
- NOTE 10 b Multi-party and party-line services:
For calls between customers on the same line or to customers connected to the same exchange or its auxiliary exchanges or to another exchange in the same group in grouped telephone-exchange systems
- NOTE 10 c Automatic party lines:
For calls between customers on the same line
- NOTE 10 d For calls between customers connected to theoretical exchanges (TES) served by the same control exchange and to customers connected to the relevant control exchange.

NOTE 11 DIFFERENT CALL CHARGES - Notwithstanding the rates in table A1.6 the following charges apply:

- NOTE 11 a Payphones at exchanges that are not equipped with facilities for metering according to variable time interval (VTI) as described in conditions of contract:
For calls to customers or other payphones connected to the same exchange: Payphone unit call charge per three minutes or portion thereof.
- NOTE 11 b Payphone calls at automatic exchanges equipped with facilities for VTI metering. The call charge is prescribed in table under item A1.6.1 for calls with VTI metering, except that no charge shall be raised for any unexpired metering period that has already commenced when the connection is made.
- NOTE 11 c For calls to customers or other payphones connected to the same exchange:
Local call charges (0-50km) in the Table under item A1.6.2 applies.
- NOTE 11 d Payphones with VTI facilities in grouped message-rate exchange systems:
Local call charges (0-50km) in the Table under item A1.6.2 applies.
- NOTE 11 e To customers or payphones connected to exchanges in different groups:
The metering periods in the Table under item A1.6.2 apply.
- NOTE 11 f Reserved
- NOTE 11 g For calls between customers connected to the same exchange or its auxiliary exchanges or between exchanges in the same group in grouped telephone-exchange systems:
Rate A in the Table under item A1.6.2 applies.
- NOTE 11 h For calls in grouped message-rate exchanges made by customers from exchanges in one group to exchanges in another group, the metering periods as prescribed in the Table under item A1.6.2 apply.

- NOTE 11 i For calls between exchanges in one group and exchanges in another group in grouped telephone-exchange systems, the charges per call as prescribed in the Table under item A1.6.2 apply.
- NOTE 11 j Customers and payphones connected to any other exchange than the controlling exchange, the trunk call charges prescribed in the Table under item A1.6.2 apply with the relevant TES as the measuring-point exchange.
- NOTE 11 k Reserved
- NOTE 11 l Automatic message-rate exchanges – Local call charges (0-50km) in the Table under item A1.6.2 applies.
- NOTE 11 m For calls between exchanges in one group and exchanges in another group in grouped telephone-exchange systems, the charges per call are as prescribed in item A1.6.1
- NOTE 11 n to q Reserved
- NOTE 12** **EXTENSIONS**
- NOTE 12 a Reserved
- NOTE 12 b Telephone extensions on different premises than the main service (including rental for standard instrument) - The rental for outdoor wiring should be added to the rental for same premises extensions where applicable. Since 1 April 2003 outdoor extensions are restricted to the same premises.
- NOTE 12 c Exchange or extension lines terminated on first unit. The prescribed tariffs apply.
- NOTE 12 d Each individual telephone instrument in the Plan system shall be regarded as an extension line.
- NOTE 12 e When Telkom is requested to provide an indoor extension off an automatic residential and single line business exchange connection, it is done so against payment of a once-off installation fee. The wiring and jack becomes the property of the customer but a mandatory monthly maintenance fee is payable to secure free maintenance of the extension wiring and jack.
- NOTE 12 f Reserved
- NOTE 13** **INSTALLATIONS**
- NOTE 13 a The REUEC charge must not be applied to services that carry a prescribed installation charge that is lower than the REUEC charge. For example, the social pensioner rate will apply when a pensioner obtains a service under the REUEC conditions.
- NOTE 14** **RESERVED**
- NOTE 15** **CHANGES: NUMBER/NAME/CUSTOMER**
- NOTE 15 a Zero charge applies where renter passes away and account is transferred on to the name of the spouse, or where a woman has married and requires that the registers be changed to her new surname. The same applies where a woman gets divorced and requests the surname to be changed to her maiden name. See Chapter 49 of Vol. 4 of the Commercial Policy Reference Document.
- NOTE 15 b Charge is per invoice (bill group) irrespective of the number of lines per invoice.
- NOTE 15 c Reserved.
- NOTE 15 d The charge falls away when the conversion is arranged simultaneous with a change of telephone number.

NOTE 16 **MISCELLANEOUS**

- NOTE 16 a Telephone service on board a ship for a period not exceeding three months.
- NOTE 16 b Rental and installation charges already included in the tariffs for the main service or extension.
- NOTE 16 c Exchange connection, includes DSL, VSAT, ISDN BRA & telex.
- NOTE 16 d Reserved
- NOTE 16 e Abbreviated dialing (SpeedCall) - A block of 10 numbers is regarded as one facility.
- NOTE 16 f Change of main telephone number only = R246.08 (Excl VAT)
Change of MyRing secondary number/s per occasion = R23.35 (Excl VAT)
Change of main number and secondary number/s simultaneously = R246.08 (Excl VAT)
Reconnection payable for main number only.
- NOTE 16h This service has been replaced by the Enhanced Service facilities and should no longer be provided to new customers. The tariffs apply to existing customers only. In the event of a PlusFacility customer requesting the amendment of facilities within an existing packet the service must be transferred to the Enhanced Service features.
- NOTE 16i Reserved
- NOTE 16j Where more than one TalkPlus facility is provided simultaneously, the installation (registration) fee as for one single facility is payable. The same policy applies when more than one facility is amended at the same time.
- NOTE 16k A registered customer of a telephone service can obtain a copy of his/her telephone account/detail bill, free of charge. However, if a third party should request a duplicate of a customer's account, the request must be handled in accordance with the conditions contained in Chapter 44 of the Commercial Policy Reference Document, and the charge must be applied.
- NOTE 16l Additional data volume can be obtained at the price quoted. The upgrade will be in operation for a minimum period of 30 days. The service will be downgraded at the customers request only after 30 days. No downgrade fee will be charged.
- NOTE 16m DSL rental charges are payable in addition to the exchange line charges. DSL installation charge only applicable when customers request Telkom to do the installation; and only when the DSL is not provided simultaneously with the main service.
- NOTE 16n All national telephone calls (Standard & Callmore) within the Telkom network to 5 pre-selected telephone numbers are subject to 10% discount.
- NOTE 16o The monthly charge consists of the normal ADSL connectivity rental, service fee and modem price based on a 24-month interest free installment plan.
- NOTE 16p The physical conversion to PrepaidFone is not possible. Conversion from ISDN BRA to PrepaidFone must be treated as the discontinuance of the ISDN and new provision of the PrepaidFone service at the prescribed rate.
- NOTE 16q The exchange connection charges are payable in addition to the SSO charges. In the event of a SSO indoor transfer only the tariff for the indoor transfer of the exchange line/s is/are payable.
- NOTE 16r The charge only applies if a Telkom technician is not required to do the installation and is the filed tariff. Product Management will run promotions from time to time when the self-install option will be allowed free of charge and this should be verified with the relevant product manager.
- NOTE 16s Where an indoor transfer of a service on the same premises is required simultaneously with the conversion of one service to another, only the conversion charge is payable. No indoor transfer fee must be added.
- NOTE 16t The charge is payable once only per occasion, i.e. it covers both the temporary suspension and restoration of the service on the requested dates: it is NOT payable twice.
- NOTE 16u The prescribed monthly rental for the applicable DSL service will apply irrespective of whether it was self installed by the customer or by Telkom.

NOTE 16v Fast DSL based on 2Mbps technology
Faster DSL based on 4Mbps technology
Fastest DSL based on 10Mbps technology

NOTE 17 ISDN

- NOTE 17 a Where an ISDN 30 PRA service(s), whether subject to an agreement or not, is transferred indoors and prior to the transfer of the service(s), the customer enters into an ISDN 30 PRA agreement for which the then current installation charge is less than the indoor transfer fee, the installation charge that would be applicable to the same number of new services, will apply. Should the service be subject to an agreement, however, the term of the new agreement must be longer than the remainder of the existing agreement.
- NOTE 17 b BRI access will always consists of a basic access charge and a value added charge.
- NOTE 17 c Minimum rental period is one year.
- NOTE 17 d A portion of an hour should also be billed according to the hourly charge.
- NOTE 17 e The installation charge will be waived if MSN and DD services are installed at the same time as a basic access service.
- NOTE 17f The installation charge for supplementary services should be waived if it is provided simultaneously with the initial provision of the BRI or PRA service.
- NOTE 17g Rental for DDI numbers applies per BRA. If a customer has 3 BRA connections and the DDI numbers are split amongst the 3 links, the charge is rental x 3.

TELEMATICS**NOTE 25 RESERVED****NOTE 26 RESERVED****NOTE 27 DATEL TERMINAL POINT EQUIPMENT**

- NOTE 27 a Reserved
- NOTE 27 b-j Reserved.

NOTE 28 PRIVATE LINES

- NOTE 28 a Private lines are currently provided by means of digital transmission equipment and the Voice Grade Leased Line (VGLL) Terminating Unit (TU) provides an analogue interface to the customer. In all instances where these lines are provided the VGLL TU must be specifically configured for the customer's application.
- NOTE 28 b Should a line extend from a point within the minimum rental area (MRA) of an exchange to a point beyond the MRA, the portion beyond the MRA is charged in addition to the portion within the MRA.
- NOTE 28 c Reserved

NOTE 29 DATA AND VOICE GRADED LEASED LINES (VGLL)

- NOTE 29 a Reserved
- NOTE 29 b Reserved.
- NOTE 29 c The line rental is based on the radial distance between the end exchanges.
- NOTE 29 d Reserved.

- NOTE 29 e The network access circuit shall be rented permanently.
- NOTE 29 f If both the termination points of a circuit are within the boundary of the same exchange, rental and installation must be charged for both terminations. Over and above these amounts, the fixed line charge must always be applied irrespective of the distance between the terminal points
- NOTE 29 g Rental is calculated per pair and installation per terminal point.
- NOTE 30** **SAPONET**
- Saponet is the public-switched data network that forms the backbone of all Telkom's value-added Telematics services known as Easy Access, Triple-X and Speedlink. Triple-X caters for low-speed to Saponet-P for customers who may have relatively small volumes of data to transfer.
- NOTE 30 a A Saponet X25 port may have a maximum of 256 logical channels
- NOTE 30 b This charge covers the entire PVC and it is therefore not levied at both ends of the circuit.
- NOTE 30 c Reserved
- NOTE 30 d Triple-X access to Saponet-P is no longer available to new customers. Please recommend Diginet access.
- NOTE 30 e Reserved.
- NOTE 30 f This charge is levied to recover the costs of providing the dial-in ports, as well as the average costs of outgoing telephone calls in the case of dial-out calls.
- NOTE 30 g Applies to calls that are successful, and to those that are unsuccessful for reasons beyond the control of the network, e.g. cases in which the called terminal is unable to accept a call.
- NOTE 31** **DIGINET AND DIGINET-PLUS**
- Diginet is the digital data service that provides efficient and reliable point to point data connections between business locations.
- NOTE 31 a If a Diginet link is used as an access circuit to Saponet, (i.e. the circuit between a customer's premises and the data switching exchange), the customer pays for a Diginet port charge at the multiplexer in his parent telephone exchange, but not for a Diginet port charge at the multiplexer in the data switching exchange.
- NOTE 31 b Telkom may elect to install a Diginet multiplexer at a customer's premises, instead of connecting a customer to the nearest telephone exchange. A multiplexer has a complement of 31 time slots terminating in Diginet ports.
- NOTE 31 c Reserved
- NOTE 31 d No Megaline installation or local end charges should be used in the case of single circuits unless the customer requests and insists that a 2 Mbit/s (currently only 1984Kbit/s is available) local-end be installed for his exclusive use (dedicated access circuit). Normal Diginet Network access charges to be applied to all speeds (i.e. 128kb/s to 1984 kb/s).
- NOTE 31 e Where the multiplexer is on the customer's premises the radial distance is calculated from the local exchange that would normally serve the customer.
- NOTE 31 f A multipoint network comprises three or more terminal points interconnected by means of multipoint extensions, including a multipoint extension to SAPONET, terminating in multipoint junction equipment. The charge for each multipoint extension is levied between the relevant terminal point and the multi-junction equipment point where the multi-dropping occurs. In the case where a line interconnecting two multi-junction equipment points in a multipoint network, the charge for the radial distance between the two multi-junction equipment points is levied.
- NOTE 31 g Reserved
- NOTE 31 h Reserved

NOTE 33 RESERVED**NOTE 34 FRAME EXPRESS**

FrameExpress is a streamlined version of the X.25 packet switching system that has been designed to increase network speed with low network delays and effective utilization.

NOTE 34 a The FrameExpress tariff structure comprises of 2 elements. These are monthly port charges and the flat rate Committed Information Rate (CIR) prices based on the port speed and the CIR purchased by the customer.

Port charges:

The maximum port speed of FrameExpress has been lowered to 1920Kbit/s. The port speed cannot be higher than the maximum speed of the access circuit. Each port speed has a minimum and a maximum CIR where the maximum will also be equal to the maximum speed of the port except for 1920 kb/s. When a 1920 kb/s port is rented, the maximum speed that is guaranteed, is the same as for 1024 kb/s. A customer renting a 1920 kb/s port can however operate at speeds ranging from the minimum speed up to speeds beyond the maximum speed guaranteed for the port when the network is not handling a full load.

Flat rate CIR:

The flat rate CIR prices have replaced the packet count charge that was traffic based. With the flat rate CIR prices the customer can have unlimited usage when the network is not busy but Telkom will only guarantee a CIR equal to the CIR price the customer is paying for when the network is busy. Higher CIR's can be purchased in allotments of 8 Kb/s. A new CIR flat rate prices have been added that is the only exception where the allotments of 8 Kb/s is not applicable.

NOTE 34 b The circuit charges for access to FrameExpress are not included in the port charges. The Digital Access to FrameExpress prices are therefore applicable and must be applied over and above the port and CIR prices.

FrameExpress Diginet-Plus access speed

Although the maximum port speed for FrameExpress has been lowered to 1984Kbit/s, the Diginet-Plus access speed must remain at 2048Kbit/s to allow for management on the Diginet circuit. The management is absolutely essential to reduce data errors on FrameExpress to a minimum.

NOTE 34 c Up to five Permanent Virtual Circuits (PVC's) can be configured on each FrameExpress port. No additional fees are charged for the configuration of PVC's.

NOTE 34 d When PVCs need to be reconfigured or multiple configurations are needed, the current fee under Item A2.11.1 d (i) applies for every 5 configurations per occasion. Should a sixth configuration be necessary on the same occasion, the fee is charged again for the sixth configuration or any number of configurations between 6 and 10.

NOTE 35 AFTER-HOURS REPAIR SERVICE

NOTE 35 a No charges are levied for after-hours repairs. The details of whether after-hours repairs should also be done in the case of party line services etc. is left to the discretion of regional offices.

After-hours repair service is rendered during the following hours:

Monday to Friday : From 17:00 until 07:30 the following morning

Week-ends : From 17:00 on Fridays until 07:30 on Monday mornings

Public Holiday : From 17:00 on the preceding workday until 07:30 the next workday.

NOTE 36 RESERVED**NOTE 37 RESERVED****NOTE 38 RESERVED**

NOTE 39 **TELKOM ENHANCED FAX**

NOTE 39 a The Telkom Enhanced Fax (EFS) service is operated in a competitive market and the prices must therefore not be given to members of the public unless the product manager has given consent.

NOTE 39 b The rented space on the FOD server is for 1000 documents per subscription.

NOTE 39 c International fax deliveries will be charged for at the international off peak rates for international fax traffic on a 24 hours per day basis. All inquiries should be directed to the International Business division.

NOTE 39 d Reserved

NOTE 41 **MEGALINES AND ATM EXPRESS**

NOTE 41a Pure Megaline and Megaline-Plus Bronze services may no longer be provided as new services. The "Silver" attribute has been removed from the Megaline Plus name. Only Megaline Plus services are offered as new services. Megaline-Plus services are enhanced Constant Bit Rate (CBR) broadband services. These services enable broadband (2M/bits or higher bandwidth) applications using Asynchronous Transfer Mode (ATM) switching and statistical multiplexing through the Telkom national network. ATM transports units of information in fixed length cells and supports wide area network applications consisting of data, video, voice and imaging over a single broadband access facility.

Megaline-Plus provides current Megaline customers with the benefits of new technology through Telkom's national ATM network. Customers will receive these benefits and improvements in service reliability on the main link portion of their service.

Megaline Plus is a further service enhancement using ATM switching to allow the addition or change of end locations, with customer selected priorities on an application by application basis. Both Megaline Products provide guaranteed CBR speeds (2 M/bits, 34 M/bits & 140 M/bits) between the customer's end locations.

NOTE 41b Should a customer need a Megaline service for a period of less than a year and is unwilling to enter into a one year agreement, the higher price is available to accommodate his needs of less than a year.

NOTE 41c ATM Express

The "Silver" attribute has been removed from the ATM Express name. ATM Express services are Variable Bit Rate (VBR) services that provide scalable bandwidth speeds higher than 2 M/bits using Asynchronous Transfer Mode (ATM) switching. These services allow access to the extra bandwidth speeds (M/bits), when there is space on the link and are variable from a guaranteed minimum speed up to a specified limit.

ATM Express Standard (Old Bronze) is provided only at a 2M/bits bandwidth speed. ATM Express is provided as a total service solution up to and including the customer's premises. ATM Express enables bandwidth speeds of 2 M/bits, 34 M/bits, 140/155 M/bits and 10 BT. The service has a re-routing capability that can switch the connections automatically if failures occur on links

NOTE 41d Due to cost implications, temporary services cannot be provided on 34Mbit/s and 140/155 Mbit/s.

NOTE 41e E1, E3 and 10BaseT interfaces only supported for existing customers. All new customer interfaces will be STM-1 OC3 for speeds 2 – 155 Mbit/s.
